MEMORANDUM FOR: Director of Data Processing

FROM: _____   25X1

                  Director, Foreign Broadcast Information Service

SUBJECT: ODP Support for FBIS Modernization

1. This memorandum requests the assistance of the Office of Data
Processing in connection with FBIS planning for its Modernization Program.

2. We have already had informal contact on certain aspects of our
current designs, but would like to discuss in detail the various alterna-
tives. For example, a long-term solution to FBIS support for the DI may
include extending SAFE capability to FBIS. For the near term, however,
we require a computer system with storage capacity for FBIS products,
with software to support retrieval by analysts. We would be interested
in discussing ODP ideas on system alternatives.

3. I would appreciate your designating someone to contact |_____| 25X1
|_____| chief of the FBIS Systems Development Staff,   25X1
to discuss what options might be considered. We hope to begin acquisition
in our automation program this fiscal year.
                                                                          25X1
